## Income Tax, Our Tithe to Communism

By C. LEON de ARYAN

An aspirin, taking an aspirin — if you want a realistic symbol of Germany's downfall, it is portrayed by the aspirin. America is going the way of Germany and the aspirin explains it. Instead of investigating what causes their headache the Germans took aspirin, exported aspirin and Europe went to hell.

The same picture is repeated with cancer, polio, small pox, diptheria, etc. All destructive phases of the organism are **induced by violation** of the nature and function of bodily organs. But, instead of rectifying the abuse to which we subject the human body, we take an aspirin, to silence the nerves and brain that announces the abuse and warns of worse to come. We take a "shot" of this and that; we spend billions "searching for a cure" instead of retracing our steps and ceasing to impose wrong living on the body.

Exactly the same is true of the body politic.

Every imbecile, the world over, now is crying for war on Russia. It suits that arch-murderer and conspirator Bernard Baruch to a "T". That's what he wants, as the executive mouthpiece of the Sanhedrin. The hysteric fools forget that Russia means living people like you and me; that these people do no more want to be killed, maimed, starved, terrorized and enslaved, than you and I. But Bernard Baruch is to the "western" world what Joe Stalin is to Russia. Stalin is merely a tool of the Politburo and Baruch is a tool of the Tories. The Jew has never ruled the world, all appearances to the contrary; he does not rule now. The Jew is a tool in the hands of the Tory. Being sly, unscrupulous and tenacious, the Jew is **hired by the Tories** to do the dirty work. Baruch is a mercenary in the pay of the Tories, as much as the Pope's Swiss guard, as much as the Hollywood Jews are hired by Rockefeller to pervert America and the world thru pervert movies. Of course, that is nothing to the Jews' credit nor does it absolve them of the crime of perversion. But money being their god, Baruch and the rest of them do anything for cash, striving to overcome their Jewish inferiority complex without spiritual integrity.

And so it came to pass that the U. S. Constitution was amended to "constitutionalize" the income tax rake-off, or **compulsory check-off.**

The American who rails at Stalin, yet pays income tax, is a born imbecile. The American who fights the closed shop with its checkoff of dues, yet pays income tax and takes an aspirin computing his tax, has nobody but himself to blame. He is going the way of Germany.

The human body cannot be explained without considering its **CREATOR.** All "medical science" that deliberately ignores the SPIRIT of Life which produced the human body thru eons of involution, evolution and perfection, is just so much **perversion of intelligence.** In fact, all modern medical "science" is undermining health and intelligence and the Rockefeller Institute is financing this perversion. Wherever there is something rotten and criminal on a large scale you will finally find Rockefeller behind it.

The LaFollette family has been one of the best Shabes-Goyim, still are, working for Rockefeller's racket. A Shabes-Goy is a Goy who hires out to the orthodox Jew to do his dirty work for him on the Shabes, or Sabbath, when the Jew must not soil his hands. The LaFollettes made the income tax "popular". If ever there was a living enemy of American individualism it is the La Follettes.

The income tax was popularized by claiming that it will "hit the rich" and help the poor. Well, Jesus taught us that every time we set a trap we'll get caught in it. Now you are not permitted to be "richer" than $500 a year. That's LaFollette. The state of Wisconsin with its third generation of Germans is the source of socialism and Communism in America. Wisconsin is Stalin's **FIFTH column.** Germany went to hell because it ignored PRINCIPLE, it builded on sand.

To be rich is no crime, LaFollette and the Wisconsin "Progressives" notwithstanding. To be rich as the result of foresight, industry and thrift is one of the awards of God to HIS children. Only where intellectual and moral integrity are lacking do riches become an indictment.

Every American should be encouraged to become a millionaire. The children should be raised to that end. Had we not wasted untold billions in warfare and internal fraticide, each of us would be a millionaire today. Why not? What is wrong with producing paradise on earth?

The principle of sovereignity created one RIGHT: **the right to full enjoyment of the results of one's labors.** But when the State comes and muscles in and limits one to $500 a year, what business have we to rail at Joe Stalin? It's merely a difference in degree between Russia and the U. S. A. Over there the "income-tax" is a direct levy in kind. They take a portion of the farmer's products and limit the wages of the "masses" to mere subsistence. Everybody works for the state frankly and brutally.

In the U.S.A. we give lipservice to "sovereignity" of the individual. We celebrate the 4th of July with its Declaration of God-given unalienable rights; yet, we limit the "freedom" of individual rights to $500 a year, beyond it it's a crime to produce and own and the "sovereign" **is licensed by a graduated tax to make more** on condition of divvying up with — Stalin, the American Stalin, alias Uncle Sam.

From the income tax to a 100% slave state is just a step. If Uncle Sam can limit you to $500 and get away with it; if Uncle Sam can collect up to 90% of your income, it's just a matter of time when he'll collect 100%.

After all, Communism comes from within and we have it. Killing Russians over there is not going to eliminate our American reared brand.

By whatever name, thievery and the checkoff smell just the same.

## Germany Needs Economic Aid First, Synod Is Told

ST. LOUIS,—Germany must have economic help even before spiritual help because **"dead men cannot read Bibles"**, Dr. Carl E. Schneider told a public convocation to the General Synod of the Evangelical and Reformed Church.

Preceding the convention, attended by an audience of 7500, a procession was held from Soldiers' Memorial to Washington avenue, the marchers then proceeding to Kiel Auditorium.

Participants in the procession included 300 delegates from various parts of the country, official representatives of 80 congregations in the St. Louis area, Evangelical Deaconess Hospital nurses and representatives of seminaries and other organizations, each group carrying standards.

Dr. Schneider, a professor at Eden Seminary, has been in Europe for the last two years on the staff of the World Council of Churches. His speech was a report on German conditions.

Declaring that the basic problem that obstructs recovery in Europe is economic, he declared that Germany is suffering **"physical and spiritual exhaustion that is sapping the last recuperative powers of the nation".** He said this is leading to rise of a new philosophy of nihilism.

He deplored the attitude of some American soldiers in the army of occupation that "since Germany caused all this, it has this coming". He said the occupation forces instead should adopt the point of view of a physician who does not spend his time criticising the patient but instead aids him toward recovery and rehabilitation. He added "the nations of the world may well counsel amongst themselves in these days for the recovery of Europe, but it is the Church of Christ that adds the salt of redemption".

The Council of Churches represents 38 nations and 27 American denominations. Dr. Schneider has been on leave of absence from Eden Seminary while serving in Europe, with headquarters at Geneva, Switzerland.

## Judge Weinberger's New Definition of a Slave

By C. LEON de ARYAN

American history has been written in San Diego by the conviction of Mrs. Elizabeth Ingalls in federal court on the charge of having enticed her colored maid Dora Jones, to refuse the offer of Richard and Helen Roberts to work for them and to having "forced" her to choose instead to accompany Mr. and Mrs. Alfred Ingalls to Coronado, to work as a **slave.**

The statute under which Mrs. Ingalls was convicted stems from after Civil War days when it was enacted to prevent Yankees from enticing Negroes to travel to Cuba where they were sold as slaves. Alfred Ingalls escaped conviction as an accomplice by a tie of the jury, 8 to 4 for acquittal.

The presiding Judge Jacob Weinberger is a San Diegan who was appointed by Truman as a reward for his faithful support of the New Deal. Jake is Jewish. As presiding trial judge his conduct was above reproach. Yet, the instructions he gave the jury, several of which were high-class men and women, the best of San Diego citizenry, has created a sensation and the repercussions are bound to be historic.

**"A slave is a person who is wholly subject to the will of another, one who has no freedom of action and whose person and services are wholly under control of another, and who is in a state of enforced compulsory service to another."**

That exactly describes the condition of persons in our armed forces. Thus, Judge Weinberger names Uncle Sam.

Mrs. Ingalls was remanded to jail pending sentencing on July 29. She had been free on bail during the trial.

The trial evidence proved various things. Dora had been informed by Police Sgt. Wm. G. Hoyt of Berkeley that she did not have to fear any threats Mrs. Ingalls may have made, but was free to join Dr. Roberts' household in Berkeley. Prosecuting U. S. Assistant Attorney Ernest A. Tolin, explained away this fact of Dora's own choice by saying:

**"You can throw a dog a bone and then beat him, but when it comes time again to eat, the dog will come back to you, wagging his tail and fawning on you, because he knows that he will get something to eat — he has a sense of security. There may be drawbacks that the dog does not like, but the food is there."**

Yet, the food for Dora was not at stake. The Roberts offered the "dog" not only food but "freedom", after Dora had been a "slave" for 27 years in Boston to the Ingalls. And the police made it clear to her she was free.

And that is the poser. The jury of her peers found Mrs. Ingalls guilty and higher courts will decide the issue now. There is no question but that Dora was abused. Yet the "peculiar" definition of the court as to what describes a slave begins to work in our mind until we wonder and wonder and ponder . . . .

* * * *

### JANE DOE SUES HUSBAND FOR ENTICING HER INTO SLAVERY

Having read Weinberger's definition, Jane Doe preferred criminal charges against Henry Doe as follows: "I was an ignorant girl of 18 when Henry enticed me to marry him. He promised to love me and take care of me, always. We sat under the full moon and he drew pictures of paradise. Yet, after marriage I became his slave. Three children followed in a row; I worked and slaved morning, noon and night. None of his romantic promises came true. He fooled me."

Well, according to Weinberger's definition Jane Doe became a slave. She was "free" to leave, as Dora was, yet, if she did, Henry threatened to keep the children. Thus he held her **"in a state of enforced compulsory service".**

This parallels Mrs. Ingalls' threats to Dora to have her locked up for having misconducted herself with Walter Harman, Mrs. Ingalls' first husband.

* * * *

### Uncle Sam Charged as Accomplice in Holding 30 Million Americans in Slavery to Labor Racketeers

And now another case comes before congress based on Weinberger's definition of slavery. 30 million non-unionized American wage earners prefer charges before the Civil Rights Congressional Committee in Washington, D. C., alleging that Uncle Sam conspired with Labor Racketeers to hold them in involuntary servitude. Specifically named are President Truman, Senators Wagner, Taft and Congressman Hartley. The charges are that under the Wagner-Taft-Hartley acts, as amended and carried out by the President and his NLRB, the plaintiffs **"are wholly subject to the will of labor racketeers, are placed under the jurisdiction of union shops, in a state of compulsory service paying dues involuntarily, or else are left to starve", etc. . . . .**

Since Weinberger's definition does not bring in issue the consideration for which the "slave" is performing service under compulsion, the basis in law is not changed by the fact that Dora Jones just got board and room and some of the complaining 30 million American wage earners get well paid. The point at issue is **"no freedom of action and whose person and services are wholly under control of another".**

More than 30 million American wage earners qualify as slaves under the Wagner Act as amended by Taft-Hartley and defined by Judge Weinberger.

Will the Congress impeach Truman, Wagner, Taft and Hartley, as charged?

Will Weinberger jail them pending disposition?

What will these conspirators against the liberties of 30 million Americans get?

## How U. S. A. Forces Communism upon Russians

By C. LEON de ARYAN

When John D. Rockefeller, Sr., slaved to establish the Standard Oil Co., at first personally selling coal oil by the gallon, he figured out a way to accelerate his control of the industry. As all American tycoons of his day, old John D. considered a competitor an enemy who had to be destroyed at all costs and by all means. This ruthless destruction of competition was labeled by the exploiters of natural resources, of labor and consumers: **"rugged individualism";** hence brought "individualism" into disrepute because the morons in America and the world over took the example of the tycoons to be AMERICAN INDIVIDUALISM, while in truth it is the most perverted abuse thereof as well as un-American in every respect, if Americanism means the safeguard of individual rights for all.

At that time the underprivileged and exploited immigrant labor began to organize to get even with its exploiters. The railroads, lumber industry, contractors of municipal and national constructions, all of them were engaged in importation of cheap labor. The result of it was the I. W. W.

Shrewd, but unscrupulus, old fox that he was, John D. clandestinely subsidized the growth of the I. W. W. and channeled their activities against his competitors. His success was immediately imitated by mining and lumber tycoons and the I. W. W. became **a menace to the average American enterprises.** This disruption worked out to the advantage of Big Business and using all crooked means, yet legal at the time, Standard Oil became the monster it turned out.

John D. did not invent anything new. This method had been used ever since the days of Alexander, the Greek conqueror; it made Rome a world empire, and naturally it put Rockefeller in line to compete with England for control of the earth. While John D. came to an understanding with the Anglo-Dutch oil combine, of course, Standard Oil began to support England. Standard Oil is our State Department.

Much has been said and written about Amshel Mayer, the Jewish usurer who financed the war against George Washington. His success in selling Hessians to the English King for the profit of the Hessian Fuerst, was rewarded by the German ruler with a baronage: **Meyer became Baron von Rothschild.** And while anti-Semites direct their gaze at Rothschild, they forget he was the useful tool of two Tories: English and German rulers, both Teutonic. Thus, it was the **Teutonic mass murderers who created Rothschild.** You will find that the Jews were persistently usurious tools of "Aryan" Tories which was very convenient in more than one way. When worst came to the worst, the Tories started to point to the Jews as the dirty rats, and the fool moronic mobs fell in line with the official pogromists. All Jewish persecution at all times was planned and executed by the Tory schemers to divert attention. In this fashion, even today, attention is being diverted from the "Gentile" or if you are fool enough, from the "Christian" Tories to the Jewish usurers, ignoring the fact that Chase National Bank exerts control, owned by the Rockefellers.

While Bernard Baruch is the ruling head of the Jewish Sanhedrin, one forgets that without the backing of the Tories, the Jews would get nowhere. **Exploitation of the earth's natural resources** thru slave labor and forcing morons to "voluntarily" hire out as soldiers, to escape starvation, or else draft them to fight for the Tories' expansionists empires, gives the Sanhedrin its opportunity to get their pound of flesh thru usury. Whoever attempts to remedy exploitation by making the banksters the goat, naturally **protects the REAL culprits,** the Tories.

What is called "capitalistic democracies" is nothing else but the combination of usury with land exploitation. While in the U. S. A. there was much "free" land the pioneers could move on to maintain a certain amount of self-government. Now that all land has received "title", Tories and their tool, the Sanhedrin, are catching up with us.

War is the last resort of Tory tyranny. And thus a new "enemy" of freedom has to be pro-

duced. Since Germany, Italy and Japan have been enslaved to the Tory-Sanhedrin chariot, and all other countries accept the dictation of the almighty Dollar-Sterling control, there is just one "enemy" to conquer: Russia. And to fool the idiots again into paying the cost of destroying this last opponent to the Rothschild-Rockefeller empire, an **"ideological war"** has been proclaimed. Yet, when one analyzes and takes the lid off, there is no ideological clash whatever, but the same old story of England, with the help of the U. S. A. this time, buttressing its "superiority" to exploit the native peoples of the world.

Russia, if supported in its rights to live, just as Germany or Japan, or China, is primarily nobody else but its millions of individual souls. The mass everywhere in the world follows leaders. If the leaders were not blind worshippers of force and exploitation, there would be no trouble. But "smartness" is rated in treachery, not as faith. This is a condition which is chronic during the era of the evolution of man from a ferocious animal to a rational being. Because the masses are yet ferocious, they set more stock by a "strong arm" leader than a kind, Golden Rule teacher of self-government.

Naturally, the world is reaping what it sows. But we shall never create peace and understanding of the factors that lead to freedom as long as we bow to the tyranny of ignorance. Hence, the seeds have to be sown now.

England has systematically not permitted the Russian people to civilize themselves by industrial unfoldment. The Napoleonic, Crimean, Turkish, Jap, and World War I conflicts were for the purpose of keeping Russia bottled up not to have access to a warm water port. The Russians have as much right to their natural unfoldment on this planet as had the Germans. To stop the Russians, England and U. S. A. produced the Mikado empire in Japan. The American armada "opened up" Japan. Then trained Japan to invade Korea, led by American officers. The Russo-Jap war, too, was engineered by England and the U. S. A. against Russia and finally Teddy Roosevelt gave Japan Port Arthur to keep the Russians out.

After the Russian revolution, England and America fought the Russians to impose a **military government that Russia be never free to unfold.** The FIRST nation that frees itself from militarism, can commercially, industrially, economically and culturally **rule the world** thru the influence of its example. Hence Russia was not to be allowed to have a peaceful government. By invading the new republic the military element was saddled upon the people.

Germany had its chance to lead the world and unite Europe into an economic alliance after World War I. But England schemed with the Rothschilds of France and the American Tories to saddle Germany with militarism again. They financed Hitler. That produced a new excuse for war. They financed Hitler to stop Russia from getting a warm water port.

When a nation, like Russia, is not permitted to unfold naturally and peacefully, of course, it will finally explode. Thus **militarism is forced upon it.**

And what is militarism?

Militarism is **TOTAL COMMUNISM.**

The Russian people are driven by England and the U. S. A. into totalitarian violence by all means, foul and brutal, to break thru the iron ring and gain their access to warm water, develop its people in industry and the arts of civilization. This WAR III is exactly that battle between two monsters. The Anglo-American imperialism vs. Russian imperialism. The people in England and America **have to be made military slaves to "stop" the Russian people from access to warm water.**

Is there any need of such a struggle? Of course not. By granting the Russians their natural rights to Life, Liberty and the Pursuit of Happiness, all these conditions would have been eliminated from the onset. Yet, even today, we don't improve matters by becoming slaves of the Anglo-American **Truman Plan** to keep Russia from warm water.

How long would Stalin survive as a dictator if the Russians were well fed and were traversing the seven seas in peaceful commerce? We wouldn't need to finance a "Voice of America", they would see for themselves.

## Good THOUGHT

**Right WORD** **Right DEED**

## The Negro's Place in Evolution

Dear Friend:

Thanks for answering my question of some weeks ago. It was good and to the point. I can follow you and agree with what you say. But there is one more question. This man George Washington Carver, a Negro, how does he fit into the white Aryan idea?

Find $5 enclosed for your work.

Respectfully, C. W.

* * * *

Dear C. W.:

The white Aryan idea is best illustrated to the western minds by what Plato did teach: **Ideas are the eternal archetypes of all visible things.**

Jesus presented exactly the same idea: **Seek First the REALM of God . . .**

Zoroaster teaches it by referring to the THOUGHT of Mazda as the source of creation.

Every creator has first an idea of what he wishes to create; that's genius: the ability to visualize something not yet in existence and speed it into matter, **as it is in Heaven.**

In all things which you find represented in THE BROOM and especially in our Sun-Work-Shop, as well as in our Science of Religion and Economics, you must **first clear your mind of prejudice.** The savage minds around us imagine, the moment one speaks about "races", the distinction made by white imbeciles and savages who lynch Negroes, pogrom Jews, exploit the "natives" of Asia, Africa and the Indian ocean.

In our discussions we are as much opposed to the exploitation and **depressive attitude** of the "superior" white idiots and murderers against the "lower" races, as we are opposed to the vicious and arrogant assumption of "equality" by the colored races with the white Aryan. Hence, when instead of starting out from the attitudes of fools who engage in disorderly strife and rivalry, we seek FIRST the realm of God, the THOUGHT of the eternal archetypes, we find ORDER and INTELLIGENCE which excludes strife and warfare.

The divine LIFE Entity, or divine individual Atom, the EGO, the child of God, of the same substance as the Father, the "I" in all that lives and breathes, from the amoeba, the oyster, insect, fish, fowl, mammal to the highest living genius exemplified in our Saviours, is **identically the same ONE.** There is only ONE Life Essence, one Being, ONE God. Out of this essence U and I function. We both have identic powers, faculties, possibilities and so has **every living entity,** be it jellyfish, or Jesus Christ. The difference lies in the USE.

Justice, Freedom is basic. Hence there can be no favorites. ALL start with **identic faculties and possibilities.** By USE they increase their powers of action. Some in one line, others in another. Eternity and infinitude of Space gives us all the opportunity to try out exactly what suits us best. Thus, we can group ourselves as we choose, and then change as we prefer another group.

Once you bear in mind that the RULE is **identic,** that there is no arbitrary exemption from the RULE, that God gives us **absolutely nothing ever, NO PREFERENCE** to anyone at anytime, **but that we have ALL of God's powers inherent in us,** be we at present insects or an Edison, and whatever we are in appearance is the result of the **exercise to which we put our inherent talents;** — then, naturally, in the plan of the Creators of the human race, you will find gradations.

The black race is the first appearance of the human mind in material organism. It contains in **rudimentary form ALL the future possibilities of divinity in the flesh,** but only in the measure that the material responds to the divine IDEA can the result incarnate in the flesh the THOUGHT of the Creator. Hence, as man learns to improve upon his chemical blood fluid and refine his inner organs to filter out improper chemical combinations, that the black turns brown, olive, dusk, yellow and finally white. Parallel with it goes the spiritual refinement, depending on improved organs.

Again you have to bear in mind, that you may be a perfect ignoramus in one line, yet be way ahead in another line. As you can go on the market and buy a machine which you yourself could never create or put together, yet, you can easily operate it once you are instructed, so it comes to pass that many can get born into white families, acquire an Aryan body, while yet in many respects not much farther ahead than a highly advanced animal. Still, in some regards they can catch on how to operate the white or Aryan body, as the fellow can operate the machine he bought but never could construct himself.

So you will find that many an Aryan person is way below in evolution to a spiritually highly advanced Negro or Mongolian Buddhist. Yet, from the organic aspect, the white machine, the human body of the Aryan, is more refined, even though neglected until it finally atrophies, or thru misuse degenerates below a pig or a tiger.

A musical genius will produce lovelier melodies from an one-string Jew-harp than an unmusical person can from the finest pipe organ or piano.

Thus Carver demonstrated the **possibilities inherent in the Negro instrument.** He played it marvelously and enchantingly. Produced results.

Had Jesus reversed his parable of the Talents and said: There was a great land-owner and rich merchant who had many servants. He divided among them his wealth as he decided to take a trip around the world: to each according to his **demands.** Some asked for 5 talents, 2 talents and there was one who was very conscientious and hesitant, he dared not ask for more than one talent for fear of not making good. The Master left on his trip. When he returned, he asked for an accounting. The two-talented servant joyfully produced four which he had increased by good use. The five-talented man came and cried: Lord, I was a fool. The money went to my head. I thought I was so superior to my fellows who had only two and one talent, I went and had a "good time". I gambled and lost all you had given me, even went into debt.

And then came the man who had been fearful to ask for much, lest he fail and fall in debt, bring discredit upon his Master. And he was tongue-tied. Hesitantly he said: Lord, all I made out of it is **ten talents.** With all my efforts, I could do no more. First I doubled, then quadrupled. Just before you returned I hoped to get tenfold, but the four I had, plus the original one, gave me only five to invest. I doubled it and here it is.

And so George Washington Carver, even though ONLY a Negro, doubled and quadrupled, made five and doubled it again, while so many Whites think of nothing but how to **rob and murder and exploit, as the Rockefeller crowd that uses the Jews** to divert hatred to them, therewhile Standard Oil takes the world by conquest. Carver is as far ahead of the Oil Crowd as the man in my Parable.

Though Rockefeller gain the earth, he lost his divine soul. C. Leon de Aryan

## What to Eat as Vegetarians

Dear Mr. de Aryan:

Being unfortunately raised on meat and animal products it puzzles one in regard to such as you as to what you can find to eat—as to what your daily diet consists of—to acquire all the different materials necessary for the body.

I think it would be interesting if you would enlighten us thru your paper—give us recipes for dishes that you use so that we can include them in our menus and replace the meat and animal products as much as possible so that perhaps in time we too can leave off meat, milk, etc. I wonder if you eat any cooked food whatever, or do you partake of it solely as it comes from nature?

As you seem to keep so fit, it certainly would be well for the rest of us to follow your example in our eating habits.

Trust you will oblige.

Sincerely, Mrs. A. I.

* * * *

### THE RELIGION OF THE VEGETARIAN

Dear Mrs. A. I.:

My experience with change-over from meat has been very painful and for this reason I am starting out by keeping away from it as much as possible. Have paid my own penalty for murder and each of you have to pay yours to the last farthing, either in war, misery and loss of loved ones; or else in actual physical misery as if you came thru a very heavy spell of sickness. I have watched my own experiences when I changed over at the age of 15. I am 61 next August 18. It took me all this time until now to straighten myself out. It's unbelievable, but true.

Now there are so many people, like the Mazdaznans for example, who go off meat, yet stay with milk and eggs. They are merely dilatory and hold on to animalism. I noticed they lack human intelligence and fearless enterprise. They are just domesticated animals, instead of wild ones, but animals nevertheless, not divinely progressive freemen and women.

Since it is not merely a change-over in diet, but a complete emancipation from what Mary Baker Eddy chose to call ANIMAL MAGNETISM, I have hesitated to take charge of the change and left it to individual initiative, since the change is PURGATORY whichever way you tackle it. You have to pay for the hell you have done to animals and humans as a part of the MURDER machine. You have to correct all that. Hence, it is so radical, it is foolish not to realize what lies before you. The only thing is: **you cannot escape the hell of it.** By continuing the way you are doing you are making it worse; by starting to change you are at least beginning to pay off and turning towards heaven, **after the balance is struck.** All of meat-eating humanity MUST go thru the hell of WAR with all its implications. Look at Europe, England, Germany. They worked hard to create their misery. They gave their lives, their all for it and they have nobody but themselves to blame, especially Germany. The best minds of the Aryan race have spoken in Germany and England for a whole **century past, teaching the way out,** yet both nations persisted in rejecting the TRUTH and chose blood and iron instead.

Since there actually is no choice, except to add more hell, and it is coming: War III with all its horrors of added mass destruction—or to align oneself with the Christ and its bloodless diet, it is a matter of individually taking up our cross and paying up. It's a hard road up Golgatha. The alternative is what happens in Russia and Europe. They continue to perpetuate crime and tyranny; we can emancipate ourselves. So take your choice.

If you decide to change over, don't look at it merely from the angle of eats. If it has not impressed itself upon you to look at it from the angle of murder, treachery towards the animals you raise, stealing their eggs and milk, abusing their maternity functions to commercialize it un-naturally, you will never accomplish the **true change-over from animal to human.**

A non-vegetarian is an animal, a beast. The vegetarian is a vegetarian because he loves to follow out the Creator's plan and purpose. Unless you base yourself in the LOVE and DEVOTION to God's plan, to find your place, love and obey doing HIS will, executing HIS Thought of Creation, mere animal change-over from a wild beast to a domesticated one won't bring you much blessings. You still will remain a moron as all the Mazdaznans we have met, for example, have turned out to be.

If you start out as Jesus instructed us, **seek FIRST** the will of God and its righteousness, then you will find the right answer and light in all matters. But if first your interest is the belly, not the Spirit of infinite LOVE and wisdom of the Almighty, you'll remain a slave to the belly.

Sincerely, KOSTI.

Salt to taste

Select large perfect leaves of cabbage and cleanse well. Throw into salted boiling water to become soft, but not too soft. In the meantime prepare rice mixture. Brown until tender. Then add to it a cupful of cooked rice. Mix well, Salt to taste. Remove cabbage leaves from water. For each leaf use two heaping tablespoons of mixture. Place mixture in center of leaf and roll leaf and tie with white strong thread. Brown butter in a cooking vessel. Add the cabbage roll and brown them nicely in butter. Brown on both sides. Serve with tomato sauce.

GIFFORD'S California Olives

## Battling over Colorado River Water

California is out to steal all the water it can from the Colorado river regardless of the damage done to Arizona and Nevada. Because the Los Angeles real estate grafters are successful in packing two million slaves into a small territory so that landvalues go up and a few exploiters become overly wealthy, these grafters insist that they have first call upon the waters of the Colorado River.

San Diego has jumped on the bandwagon of Los Angeles exploiters and instead of developing its own water resources it throws away taxpayers' funds like a drunken sailor and wastes the bounty God gave us. There is absolutely no need joining in with Los Angeles to steal water belonging by nature to Arizona, as long as we are blessed with abundant resources within our own County and have the whole Pacific Ocean to draw upon.

At the Sutherland Dam site a skeleton reminds us of what profligates our city fathers are. During the last ten years 580,000 millions of gallons flowed into the ocean from the San Dieguito river alone. When nature gave us abundant water resources, if only we would gather the waters and reclaim the rainfall in place of letting it spill into the ocean, and the San Dieguito river is merely one example, we would not have to rob Arizona of what nature provided for that arid state.

There is an open ditch which should have been turned into a pipeline at Dulzura and bring water straight into San Diego, but handing money to Los Angeles is the first concern of our newfangled water authority of turncoat politicians.

When one considers the billions California has poured into the coffers of the Jewish and Standard Oil Newdeal to destroy the competition of Japan and Germany, while a fraction of the effort spent on producing A-bombs would have sufficed to perfect means for reclaiming ocean water for irrigation; it becomes plain how insane Americans are. Billions for destruction, murder and slavery, while here we have California and the ocean. There is wealth enough to develop and feed all the U. S. A. even, by putting water on our fertile soils. But insane people glory in bonding themselves, their offspring, to the warmakers and then robbing their neighboring state of water as the whole nation robbed Europe of self-government, knocked out Japan, so that Stalin may take over Europe and Asia unobstructed.

Who in his good senses would intrigue in Washington to deprive Arizona of its natural water resources while our rainfall spills in the ocean which itself is waiting for the application of our ingenuity to reclaim its usefulness for irrigation.

California can be the world's paradise, yet its people prefer waste and thievery.

## Criminal Squandering of Assets of "Christ's Church of the Golden Rule"

LOS ANGELES, — The Trustees in Bankruptcy for Arthur L. Bell's "Church" estate have petitioned the bankruptcy court for additional remuneration, aside and above their percentage fees, under the pretext that they gave extra-ordinary services by which they **increased the value of the estate.** Such unmitigated arrogance and lies fit in with the whole conduct of the Trustees and the Referee in this willful thievery and dissipation of a **solvent estate** which was artificially, thru criminal connivance of the CIO with its stooges in the office of the Attorney General of California at that time, thrown into the courts.

The original debt of the $3 million estate was $110,000 to trade creditors. Yet, after a year and one-half of litigation, which was unnecessary and arbitrarily solicited by the authorities handling the case, in order to destroy the assets of the Church, the Trustees state now that after they accumulated $600,000 from sales, they will need "from $150,000 to $400,000, and **possibly more,** in order to provide for allowed expenses of administration and allowed secured, priority and general claims".

The delay in closing the bankruptcy procedure and paying off the creditors was **forced upon the estate by the conduct of the Trustees and the Referee.** In place of paying **extra for such "services",** all of them should be compelled under their bonds to reimburse the members of the Church for loss thru maladministration and **conspiracy to destroy the Church.**

The chief item that contributed to this maladministration is the fact that the Trustees and the Referee **refused to FIRST make an audit** to establish what, if anything, the Church owed in state and federal taxes. Hence, the Referee and the Trustees **forced the treasury department to assess,** sight unseen, an astronomical charge against the estate which NOW, **after the audit,** is being scaled down to its natural figure, less than one tenth of the assessment. This arbitrary and unbusinesslike **RUSH** to assess taxes blindly was one of the most effective means of paralyzing orderly procedure.

What impudence of the hyenas to ask for **additional compensation.**

### OUTER LEAVES OF LETTUCE ARE HIGH IN CALCIUM

The outer leaves of a head of California lettuce, which the housewife or the gardener usually throws away, are three times as rich in calcium as the inner leaves.

These are the findings of Dr. Marguerite G. Mallon, and Florence P. Urey, of the home economics department on the Los Angeles campus of the University of California who have recently completed research on this problem.

Lettuce used in this experiment was grown on five different plots in Los Angeles County, representing different types of soil. When harvested, the leaves were dried, ground, and ashed in an electric furnace. A chemical analysis of the ash determined the amount of calcium in each sample.

"This experiment," they write, "shows that outer leaves are richer in calcium than the inner ones. Since truck gardeners discard the outer leaves for market head lettuce and this is the part which contains the greater amount of calcium, a mineral in which the American diet is often low, this fact is of interest to nutrition workers."—Nature's Path.

### BRICKER HIS FAVORITE FOR PRESIDENT

Dear Mr. de Aryan:

In regard to your item, "The Widening Ohio Split", in the July 14 issue of THE BROOM, I regret to say that Senator John W. Bricker informed me on July 11 that he is not going to run for the Presidency next year. That is very discouraging news. No loyal American could support Stassen, Dewey or Vandenberg, and one could not vote for Taft with any enthusiasm in view of his willingness to compromise on the subject of Americanism.

### MENTAL PATIENTS

By H. E. McGREGOR, M. D.

There are over 600,000 persons crowded into the mental hospitals throughout this nation.

One reason the asylums are over-crowded is because unscrupulous doctors, lawyers, judges, clergymen and citizens take advantage of the loose administration of the present lunacy laws and **railroad perfectly sane individuals to the insane asylums** without due process of law, to a life more terrible than death.

There are several reasons why psychiatrists can be considered accountable for the extraordinary increase in the number of cases of mental illness sent to mental institutions.—The Starry Cross.

## NATIONAL MADHOUSE

By MADISON MONROE

WASHINGTON,—Baseball fans here have a way of expressing themselves on the Jew question. The other day when the opposing team was having trouble to find effective pitchers, the fans began shouting advice from the stands.

"Put in Kronheim!" yelled one leather-lunger — Milton Kronheim being well known as a leader in underworld liquor and gambling interests.

"Put in Stinkenstein," yelled another.

"Put in Troublebaum," came a third stentorian voice.

"Put in Frankfurter," was another suggestion that could be distinguished before the whole thing became a confused uproar.

Wallace is being received in Britain with a cordiality out of all proportion to his importance. There is much speculation here in an effort to explain it. Many say that, after getting us into the bi-partisan Greco-Turkish handout on false pretenses, Britain is not satisfied with the way it's working out and are using Wallace as a subtle tool to discredit both the project and Truman who stuck his neck out. Just another variation of the old divide and rule strategy.

### FAVORING THE JEWS

In a long letter to the Washington Post (7-8-47) on the subject of the relief of European "Displaced Persons", F. E. Morgan, Lt. Gen., British Army, retired, who has given close study to the question, says that the "outpourings of American generosity" have gone chiefly for the "relief of Jewish persons". He then goes on to say:

"I wonder how many . . . in the United States appreciate the fact that the Jewish displaced persons of Europe constitute quite a small minority of the sickening total."

The answer of course is that very few Americans know the facts, because only the lying propaganda gets the go-sign in most of our press.

Before the war, our State Department had 118 men and women on its staff in Paris. According to a recent dispatch, there are now 1200.

"Gentiles Only" are conspicuous signs at Bethany Beach, Pasadena Beach and other beaches in Maryland. Many of these were up before the war, but many have been added lately.

There has been much criticism here of the Department of Justice in not indicting Major General Porter and Major General Wiatt, former and present Chief respectively of Chemical Warfare Service, who according to testimony in the Garsson-May case were deeply involved.

* * * *

It is just as hard to get the truth about the Jews behind the Iron Curtain as about anything else. Walter Durant, former correspondent for the N. Y. Times said in 1937 that Stalin had killed more Jews than Hitler.

"In general," says Frank C. Waldrop, editor of the Washington Times-Herald, "writers shy away from the truth of Soviet anti-Semitism . . . . probably because it is hard for them to admit that the Communist experiment has worked out in such a diametrically opposite direction to the propaganda allegations."

John Fischer, in the book "Why They Behave Like Russians", says: "Jews are being purged out of the Communist Party's bureaucracy and from the Soviet diplomatic service. Even in the Ukranian and Byelo-Russian countryside anti-Semitism is plainly apparent."

## Indian Delegate Sarcastic of Zionist Messianic Racket

JERUSALEM, — Sir Abdur Rahman, only Moslem member of the Special UN Commission inquiring into Palestine, drew considerable hilarity from the spectators with his minute inquiries into the **"divine title to Palestine"** by the Jews. Bearded, aged Rabbi G. L. Fishman, Mizrachi member of the Jewish Agency Executive, was asked by Sir Abdur whether Jews must wait for the Messiah before returning to Palestine.

Fishman replied that all Jews believe in the advent of the Messiah, but must return "home" before then. **Only after the return will the Messiah come,** the Rabbi said, which puts it up to Jews who are yet hanging around the U. S. A. and other countries, to make money.

Sir Abdur then asked sarcastically **how long after** the Jews return would the Messiah appear, which evoked considerable laughter from the audience. **"Nobody knows this,"** replied Fishman.

"What was the Promised Land?" Sir Abdur asked.

"It reached from El Arish (near the present Palestine-Egyptian frontier) to the Euphrates river," the rabbi replied.

"Was Egypt included?" — "No."

"Iraq?" — "No."

"But I take it," Sir Abdur said, "Syria, Lebanon, Trans-Jordan and the Palestine of today are included. When was this promise made by God?"

### MOSES DOUBLES FOR GOD

"About 4,000 years ago."

"When was it confirmed **by God?"**

"It was confirmed **by Moses."**

When Sir Abdur asked about **the promises to Ismael "and a multitude of others",** he again evoked laughter from the onlookers.

"No," Rabbi Fishman replied. "This promise was given only to Isaac. To the sons of Ismael another part of this world was promised."

"Has it not been left to the Messiah to bring the Jews back to the promised land?"

"No. The Jews shall return before the Messiah comes and the Messiah will come **only after** their return," Rabbi Fishman said.

### ONCE A JEW, ALWAYS A JEW

Then he wanted to know the number of converted Jews. Rabbi Fishman replied that he had no figures but that **according to Jewish law even a Marrano or converted Jew remains a Jew.** The Indian retorted that this would mean that all Moslems and Christians are still Jews. (More laughter).

Chairman Emil Sandstroem called a recess at this point.

### WHERE LANDHOLDINGS INCREASE

Our legislature has often allowed local bodies, such as road, tunnel, drainage and irrigation districts to raise their necessary money by way of an annual **tax upon the value of privately held land, with no tax on any building or other improvement.** Wherever applied, this form of tax has made it advantageous to put the land to its appropriate use, and expensive for those merely holding land for a rise in sale value.

Its application in Denmark, has resulted in a growth of ownership; today about 94% of farmers in Denmark actually hold the land they farm as owners. The ground debt (land rent) is collected by the State, not by landlords.

### LOOMIS IS FINED ON TWO CHARGES; FATHER APPEALS

ATLANTA, Ga.,—After a four-hour hearing featuring vigorous language and table-pounding by Homer Loomis, Sr., New York admiralty lawyer, Recorder A. W. Callaway fined Homer Loomis, Jr., founder of the Columbians, $52 on each of two charges, disorderly conduct-disturbance, and soliciting funds without a license.

These charges grew out of a meeting which Loomis, Jr., addressed in a vacant lot on Crew St., S. W., on the night of June 24. Loomis, Sr., who came to Atlanta to act as counsel for his son, immediately filed notice of an appeal and the Recorder released Loomis, Jr., under bonds totaling $350.

In defense of his son, Loomis, Sr., charged Detective Lt. E. L. Sikes and Detectives W. E. Petty and H. F. Brown with violating the laws protecting freedom of speech in making the cases against his son. On several occasions, his attacks upon the police brought admonitions from Recorder Callaway.

Loomis took the stand and denied he was opposed to Negroes and Jews. He charged the newspapers with misrepresenting his position on these questions. Other witnesses, formerly members of the Columbians, likewise defended Loomis and charged he was the victim of "persecution".

In his concluding speech, Loomis, Sr., thundered: **"This, so far as I know, is the first time in the history of this country where the police have attacked the freedom of assemblage on private property."**

## If Republicans Knew History, They Would Ditch Dewey . . . . No Free Speech in Boston

By WASHINGTON ADAMS

WASHINGTON, July 17 (Special)—"There is no slavery but ignorance; liberty is the child of intelligence," said a great American of long ago.

Thomas Edison had the same idea in mind when he said, **"DEMOCRACY works fairly well only where the people are fairly intelligent."** He could appreciate the words of the late Hendrik Willem Van Loon—**"Democracy** is the one form of government that, when not working properly, **can send a nation to hell more quickly than any other system ever devised by the wit of man."** (Quotation from memory).

**Hitler, Stalin and Roosevelt were the products of variant forms of "democracy". True REPRESENTATIVE republican forms of government, with proper checks and balances, would have kept them out of power.**

I was once a rear flagman with an engineering crew, surveying a railroad, which, incidentally, was never built. I held up the striped rod—for the transit man far out in front, who turned the lens of his instrument back to my position to GET HIS BEARINGS before directing the work of the axemen, chainmen and rodman ahead of him.

In a republic like ours, a knowledge of political history is absolutely essential to keep the ship of state going in the right direction. If we are ignorant of our basic history and guiding principles, we may be led astray, swing to the "left" and wind up on the shoals of Red Socialism. We need frequently to "look back" to the founders.

**On the facade of the American history library of my alma mater are these words: "IN DARKNESS DWELLS THE PEOPLE WHICH KNOWS ITS ANNALS NOT."**

I love my university, but I regret to state that most of the political history I write about I learned since leaving college and within the past seven years. It was only by reading such books as the "Documentary History of the U. S. Constitution" (debates of the great convention), McKee's "National Conventions and Platforms", that I began to realize what a criminal subverter of Americanism was the Roosevelt New Deal Socialist despotism.

**Benjamin Franklin** said our republic would be "well administered for a course of years" and would finally end in despotism when the people should become "so corrupted as to need despotic government, being incapable of any other". (See final day's proceedings of the 1787 Constitutional Convention).

Well, McKee's invaluable book has a chapter for each national election. When the ordinary voter did not vote for the President, who was selected and elected by the ELECTORS, the following headings are noted:

ELECTION OF 1789 (Washington's first election)—NO CONVENTIONS. NO PLATFORMS. NO NOMINATIONS.

**In 1800 and 1804 the Republicans in Congress suggested to the electors that they name JEFFERSON as President, which they did. And the chapters are headed: NO CONVENTIONS. NO PLATFORMS.**

This system continued for the next twenty years and covered the elections of 1808, 1812, 1816, 1820, 1824, and 1828, in each case with the heading: **NO CONVENTIONS. NO PLATFORMS. (And I might add — NO DEMAGOGUERY!).**

In 1832 the convention system started. The Democrats (as they began to call themselves) nominated Andrew Jackson, but had no platform. The National Republicans nominated Henry Clay and had the first platform in America's history—10 very short paragraphs. I shall quote one later.

**Our first seven Presidents were elected without conventions or platforms. They had more brains than all of the 25 Presidents that followed them put together.**

In 1836, there was no national platform, but the Democrats of New York—real Americans then and far superior to the New York politicians of today—in a convention the year before produced a platform, which had the best definition of our American federal conception of government I have ever read. It comprised two-fifths of the entire platform, and read as follows:

**"We hold these truths to be self-evident: that all men are . . . endowed by their Creator with certain inalienable rights, among which are life, liberty, and the pursuit of happiness; that the true foundation of REPUBLICAN government is the equal rights of every citizen in his person and property, and in their management; that the idea is quite unfounded that on entering into society we give up any natural right; that the rightful power of all legislation is to declare and enforce only our natural rights and duties, and to take none of them from us; that no man has the natural right to commit aggressions on the equal rights of another, and this is all from which the law ought to restrain him; that every man is under the natural duty of contributing to the necessities of society, and this is all the law should enforce on him; that when the laws have declared and enforced all this they have fulfilled their functions."**

If this noble conception of government had been engraved in words of stone and steel and placed in each House of Congress in Washington and in every State capitol, America might never have departed so far from the paths which the Fathers established.

Ten of the 16 Republican governors at Salt Lake City this week are said to have expressed a preference for Dewey for President, solely, I am sure, on the ground that he is governor of the too-large State of New York.

They thereby indict the nominating and direct election (democratic) system of naming our President; they abandon and repudiate REPUBLICAN government.

Not one of them can name a single inspiring or original utterance of Dewey in a campaign speech of 1944; not one historical reference; not one tribute to the history of the Republican party; not one word in support of Republican senators or congressmen within or without their States; not one word in defense of human liberty, nor one word in EXCORIATION of the infamous New Deal, whose vicious rule of our nation has brought us in sight of bankruptcy and utter ruin.

**But these misinformed governors, if they would read his speeches, would find that HE KISSED THE NEWDEAL FRANKENSTEIN MONSTER ON EVERY STUMP!**

No wonder he lost votes in every speech he made, both in 1944 and '46. He had nothing whatever to do with the national victory in 1946. His championship of the infamous "FEPC" alone should cause him to be "ditched".

### SMITH IN BOSTON

Boston—once the home of liberty and freedom—shares now the despotism and decay of its sister city of New York.

By allowing a mob of 1,000 Reds and fellow-travellers to terrorize the Old South Meeting House for two hours last Sunday afternoon and prevent Rev. Gerald L. K. Smith from speaking, the city and State authorities allowed a foul blot to fall upon their capital city.

**I have only recently seen some copies of Mr. Smith's fearless nationalist magazine, "The Cross and the Flag", of Detroit, Mich., and I must say it is one of our greatest fighters for Americanism and against Red Socialism, Communism and totalitarian despotism.**

Failure of the Republican party to be a true opposition party during most of the Roosevelt despotism resulted in the smear and persecution of nearly every Anti-Newdeal publication, such as **Social Justice, THE BROOM, Publicity, Beacon Light, The Defender, The X-Ray, N. Y. Enquirer, and The Cross & The Flag.**

Three great dailies in Washington, New York and Chicago escaped trial only because of their great wealth and power; but they knew they were next if the New Deal could have convicted some of the smaller journals.

**Against the numberless infamies of the New Deal, Tom Dewey never once lifted his voice.**

# 13 White Quincy Children Guests of Harlem Negroes

## First Motion Toward Mongrelism Sets New York Back on Its Ears—Other Gotham News

NEW YORK, July 17, (Special).—White New Yorkers, not yet fully reconciled to the New Deal-Dewey plans to make New York a Negroid city, were astounded yesterday to see in the "Herald Tribune" and "N. Y. Times" the prominent stories given to the unprecedented "experiment" in "social equality", whereby parishioners of the Grace Congregational (Negro) church at 310 West 139th St., Harlem, welcomed the arrival as house guests for two weeks of 12 girls and one boy from the Quincy Point, Quincy, Mass., Congregational church.

**It seems that this is a "return visit", as last year the Quincyites were hosts to a group of the Harlem church's Negroid youth for a fortnight's stay in the homes of the New England Nordics.**

There are no Negroes in the Quincy church and few, if any, in that city. Its pastor, Rev. Bedros Baharian, says the event is to create good will and "show the folly of racial intolerance".

Pictures in the "Herald Tribune" and "PM" show the white and black children linked arm in arm and holding hands. They are to see all of the city's sights, have local boat trips and be dined in the Harlem Y. W. C. A. Pastor Baharian is shown shaking hands with the Harlem pastor, Rev. Herbert King, with whom he is a house guest.

* * * *

### SOME DANGERS SEEN

**Many New Yorkers have expressed fears for the children's safety, since Harlem is a solid Negro community and policemen warn white people to stay away after nightfall, as crimes of violence are common occurrences.**

**Other dangers are seen in the bitter hostility of many New Yorkers to the social mingling of the races. "PM"—notorious as a Negro sycophant—had a solid page in its last Sunday's issue (p. 22), headed "Hoodlums Beat Up 4 in New Race Violence".**

Picture shows Lawrence Lyons (Negro) on a hospital bed, face contused from a beating he received while out walking with Mrs. Arminta Work, a white teacher and social worker.

Mrs. Work and Lyons were returning from Chinatown where they had purchased some food. They stopped at a place, while the Negro went in to buy some bottles of beer.

**"As I looked around," said Mrs. Work, "I noticed a short, middle-aged man staring angrily at me.**

"Then a young man, no more than 24, about 5 feet 6, 175 pounds, swarthy and good looking," addressed her. "I recognized at once that something was wrong . . . . I made him understand I wanted to be left alone."

**"Supposin' I don't want to leave you alone,' he snarled. 'WHY YOU WALK ON THE STREET WITH A NIGGER?'**

"And before I knew it, he struck me on the left jaw with his fist . . . . my head smashed into a plate glass window.

"When I came to, I saw the middle-aged man, about 45, with Panama hat, hitting Larry, who was about to fall onto the broken beer bottles.

"Then, I think, I screamed. But nobody seemed to pay any attention to me. I went for the middle-aged man . . . to scratch him so I would leave some identification marks on him. He swung at me, with a dark object in his hand, hit me on the temple, and I passed out."

After the police responded to her telephone call, she said **"the detective treated us as though we were the culprits,"** and turned down her request for an escort.

"This is nothing—just hoodlums," the officer said. "They won't bother you again. Just run along back to your party and have a good time."

The other story concerned white boys in a car who beat up some Negro boys in another car.

Matyas Rakosi, Hungary's No. 1 Communist and virtual dictator, has told factory workers that his party took over control of this country "before the United States could rub its eyes. We were able to solve the crisis before the foreign press, good and bad, was able to intervene," Rakosi said. "Such a task could only be carried out when democracy is united and is led by the brave and iron-fisted Communist Party, conscious of its aims. This is why the feat has been acclaimed by the lovers of democracy all over the world." The average American is unaware of the serious developments under Communist leadership right here in the U. S. A.

## Life Has No End

ERNEST CRUTCHER, M.D., 32° Los Angeles, Calif.

"The fruit of life is not happiness, but experience," said Schopenhauer. Experience makes life ripe; life makes character; character manifests itself on the plastic soul. Thus is individualization accomplished.

The present life is a chrysalis of psychic growth. Our corporeal encasement is temporary and changeful, of the earth earthy, suited for transient use. We pass from it through the process called death, laying aside the habitation when no longer tenable, or perchance outgrown by the spirit that seeks wider, larger, newer scenes which promote other psychic ripeness and continued growth. Minot J. Savage said:

"Life has three objects: to become all possible, to enjoy all possible and to serve all possible."

Have you made the most of your life? Has life made the most of you? Each day is a day in school—a soul-schooling.

Life is, and life will ever be. Death is not the end of life but an event in life. The study of biology and evolution indicates that God took a long time to make man. And there must have been purpose in such care. Impious, then, does it become if I, in intervals of care, rage against Providence and Fate.

Since I have all eternity to grow in, should I not eternally grow? Is it not a part of the purpose of my being here!

Some have not sown the least grain nor laid one stone upon another to witness that they have lived, said Sigurd. There are two points to every life — the beginning and the end. The end is preordained, and to it each must go. It may be direct or in devious travel, but to that precise end must each eventuate. One may go directly away from the straight course, even to go around the circle of earth, but nevertheless, he reaches his destined end at last, bringing with him the varied experiences gathered and stored **en route.**

Some have but a short way to go, life ceasing on earth when their lanes are traveled. Others, with longer earth-duration, traverse wide areas, affording larger experiences and wider range, yet, in their ultimate, they reach the stopping point and bring their life-sheaves with them.

Since life is a day in school, it betokens in some that they were delinquent or tardy in attendance, needing the "keeping-in", either in expurgation or as fortifying the soul for other lessons in the Afterlife, for we take up life again about where we leave off, and go on from there. Else, why the lessons now? We learn arithmetic that we may know how to count in after-years; we con maps to reckon relations; we study logic to learn reasoning. Even so, we get the lessons of the now to prepare for other tutelage in subsequent eras. Life is a day in school. Many of us try to play hookey and get caught in our own webs.
